Energy performance certificate (EPC)			
25, Tower Street HIGH WYCOMBE HP13 5AX	Energy rating	Valid until: 27 May 2025	
Property type		End-terrace house	
Total floor area		74 square metres	

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance for landlords on the regulations and exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance</u>).

Energy rating and score

This property's energy rating is E. It has the potential to be B.

<u>See how to improve this property's energy</u> <u>efficiency</u>.

Score	Energy ratio	ng			Current	Potential
92+	Α					
81-91	В					85 B
69-80	(С				
55-68		D				
39-54			E		48 E	
21-38			F			
1-20				G		
1-20				G		

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Roof	Pitched, 300 mm loft insulation	Very good
Window	Fully double glazed	Average
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer and room thermostat	Average
Hot water	From main system	Average
Lighting	Low energy lighting in 25% of fixed outlets	Average
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	Room heaters, electric	N/A

Primary energy use

The primary energy use for this property per year is 376 kilowatt hours per square metre (kWh/m2).

Additional information

Additional information about this property:

• Cavity fill is recommended

How this affects your energy bills

An average household would need to spend **£1,142 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £602 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2015** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 10,342 kWh per year for heating
- 2,762 kWh per year for hot water

Impact on the environment This property's environmental impact rating is E. It has the potential to be B.		This property produces	4.9 tonnes of CO2	
		This property's 1.0 tonnes of CC potential production		
Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.		You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.		
Carbon emissions		These ratings are based of about average occupancy	and energy use.	
An average household produces	6 tonnes of CO2	People living at the property may use differ amounts of energy.		

Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Cavity wall insulation	£500 - £1,500	£261
2. Floor insulation (solid floor)	£4,000 - £6,000	£55
3. Low energy lighting	£30	£29
4. Heating controls (TRVs)	£350 - £450	£27
5. Condensing boiler	£2,200 - £3,000	£144

Step	Typical installation cost	Typical yearly saving
6. Solar water heating	£4,000 - £6,000	£43
7. Replacement glazing units	£1,000 - £1,400	£41
8. Solar photovoltaic panels	£5,000 - £8,000	£273

Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Richard Garland
Telephone	07880 734200
Email	loric.energy@gmail.com

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	NHER
Assessor's ID	NHER003792
Telephone	01455 883 250
Email	<u>enquiries@elmhurstenergy.co.uk</u>

About this assessment

Assessor's declaration	No related party	
Date of assessment	28 May 2015	
Date of certificate	28 May 2015	
Type of assessment	RdSAP
