Energy performance certificate (EPC) 27 Shepherds Hill HASLEMERE GU27 2NB Energy rating Valid until: 3 June 2034 Certificate number: 0330-2807-4360-2604-7855 Property type Mid-terrace house Total floor area 74 square metres

Rules on letting this property

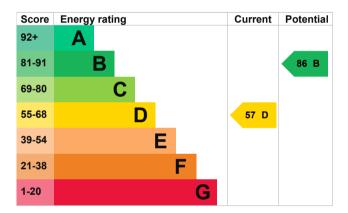

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance for landlords on the regulations and exemptions</u> (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Energy rating and score

This property's energy rating is D. It has the potential to be B.

See how to improve this property's energy efficiency.

The graph shows this property's current and potential energy rating.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	ature Description		
Wall	Solid brick, as built, no insulation (assumed)	Very poor	
Roof	Pitched, 100 mm loft insulation	Average	
Window	Partial double glazing	Poor	
Main heating	Boiler and radiators, mains gas	Good	
Main heating control	Programmer, room thermostat and TRVs	Good	
Hot water	From main system, no cylinder thermostat	Average	
Lighting	Low energy lighting in 57% of fixed outlets	Good	
Floor	Solid, no insulation (assumed)	N/A	
Secondary heating	Room heaters, wood logs	N/A	

Low and zero carbon energy sources

Low and zero carbon energy sources release very little or no CO2. Installing these sources may help reduce energy bills as well as cutting carbon emissions. The following low or zero carbon energy sources are installed in this property:

· Biomass secondary heating

Primary energy use

The primary energy use for this property per year is 326 kilowatt hours per square metre (kWh/m2).

How this affects your energy bills

An average household would need to spend £1,762 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £800 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 10,904 kWh per year for heating
- 3,153 kWh per year for hot water

lm	pact	on	the	envir	onm	ent
	paci	VII.	uic		VIIIII	CIIL

This property's environmental impact rating is D. It has the potential to be B.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

Carbon emissions

An average household produces

6 tonnes of CO2

This property produces 4.0 tonnes of CO2

This property's potential 1.0 tonnes of CO2 production

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Increase loft insulation to 270 mm	£100 - £350	£48
2. Internal or external wall insulation	£4,000 - £14,000	£389
3. Floor insulation (solid floor)	£4,000 - £6,000	£75
4. Low energy lighting	£15	£37
5. Hot water cylinder thermostat	£200 - £400	£84
6. Solar water heating	£4,000 - £6,000	£85
7. Replace single glazed windows with low-E double glazed windows	£3,300 - £6,500	£81
8. Solar photovoltaic panels	£3,500 - £5,500	£587

Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name Bethany Glaysher Telephone 01189770690

Email <u>epc@nichecom.co.uk</u>

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme Elmhurst Energy Systems Ltd

Assessor's ID EES/031222
Telephone 01455 883 250
