Property Introduction

Deceptive in appearance from the front, this semi-detached house is one of two newly built houses completed to a high standard with energy efficiency and longevity in mind. The views across to Flushing and along the Falmouth Estuary and down towards the Penryn River are quite spectacular and can be enjoyed from the lounge/kitchen/diner, balcony and two of the bedrooms.

The lounge/diner and galleried kitchen are on the top floor to maximise on the views. There is a third bedroom on the middle floor and a cloakroom. The principal bedroom with an en-suite shower room, bedroom two and the bathroom are tastefully finished and positioned on the ground floor with the garden. This new home is of a traditional masonry build and is designed to be energy efficient benefiting from solar panels, extra insulation, air source under floor heating and with a mechanical ventilation system in place the energy bills should be minimal. There is an integral garage, driveway parking and an enclosed low maintenance rear garden.

Location

Positioned on the edge of Pendarves Road and Penwerris Lane and conveniently located for the town, the property enjoys beautiful elevated views across the harbour where you can watch all the marine activity. The property is positioned just half a mile from the top of the High Street and with a couple of lovely Public Houses along the route. The High Street has a range of antique shops, restaurants and individual stores leading down into the bustling town with the Prince of Wales Pier offering ferry journeys across the water to Flushing and St Mawes.

The town has a cinema, Events Square at the far end offers a range of events held throughout the year with the Sea Shanty Festival, Falmouth Week activities and is also home to the National Maritime Museum. Pendennis Point around the headland provides a good vantage point to take in the views around the harbour and castle and Falmouth offers a choice of four beaches - all reasons why Falmouth is so popular!
