

DECISION NOTICE

Mr and Mrs Felton
c/o Mr Andy Williams
Advance Land And Planning Limited
1 Springhill
Shifnal
TF11 8FA

Date: 30th September 2022

Our Ref: 22/03452/FUL
Your Ref: Park Farm Shifnal

Dear Mr and Mrs Felton c/o Mr Andy Williams

DETERMINATION OF APPLICATION FOR FULL PLANNING PERMISSION

Town and Country Planning Act 1990
Town and Country Planning (Development Management Procedure) (England) Order 2015

Location:	Proposed Dwelling North East Of Park Farm, Wolverhampton Road, Shifnal, Shropshire
Proposed Development:	Erection of 1no dwelling and detached garage
Application No.	22/03452/FUL
Date Received:	27th July 2022
Applicant:	Mr and Mrs Felton

Shropshire Council hereby **GRANT FULL PLANNING PERMISSION** subject to the conditions listed below.

Reason for Approval

The site is in a sustainable location within the development boundary of one of Shropshire's Market Towns, and will provide development which can be laid out and designed to an appropriately high quality and which would respect the context of the site and would not be harmful to the residential amenities of nearby dwellings or to the surrounding area. Consideration has been given to all the material planning considerations and concerns. The proposed development is the same as that approved under Planning Permission Ref: 17/02636/FUL on 12th January 2018, since which time adopted planning policy has not changed. Whilst the public representations of objection are noted the proposal is consistent with the objectives of SAMDev, and in accordance with the requirements of the NPPF and Core Strategy Policy CS6 in respect of scale and sustainability. The NPPF supports

development in sustainable locations in and around settlements unless other material considerations lead to a different conclusion.

STANDARD CONDITIONS

1. The development hereby permitted shall be begun before the expiration of three years from the date of this permission.
Reason: To comply with Section 91(1) of the Town and Country Planning Act, 1990 (As amended).
2. The development shall be carried out strictly in accordance with the approved plans, drawings and documents as listed in Schedule 1 below.
Reason: For the avoidance of doubt and to ensure that the development is carried out in accordance with the approved plans and details.
3. No construction works, demolition and associated deliveries in relation to the development shall take place outside the hours of 7.30am to 6.00pm Mondays to Fridays; 8.00am to 1.00pm on Saturdays nor at any time on Sundays, Bank or Public Holidays.
Reason: To protect the amenities of occupiers of nearby properties from potential nuisance.
4. Details and samples of all the materials to be used externally on the dwellings and hard surfacing hereby approved, shall have been first submitted to and approved by the Local Planning Authority in writing before being used in the development. The development shall be carried out in accordance with the approval details.
Reason: To ensure that the external appearance of the development is satisfactory.
5. All works to the site shall occur strictly in accordance with the mitigation and enhancement measures regarding birds and great crested newts as provided in Sections 6.5.2 and 6.6.2 of the Ecological Appraisal (Greenscape Environmental, 25th July 2022).
Reason: To ensure the protection of and enhancements for Great Crested Newts, which are European Protected Species and birds which are protected under Section 1 of the 1981 Wildlife and Countryside Act (as amended).

CONDITIONS THAT REQUIRE APPROVAL BEFORE THE DEVELOPMENT COMMENCES

6. a) No development, with the exception of demolition works where this is for the reason of making areas of the site available for site investigation, shall take place until a mine gas risk assessment has been undertaken to assess the potential for mine gases to exist on the site. The mine gas risk assessment shall be undertaken by a competent person as defined in the National Planning Policy Framework and conducted in accordance with CL:AIRE - Good Practice for Risk Assessment for Coal Mine Gas

Emissions; October 2021 and having regard to current Environment Agency guidance Land Contamination: Risk Management (LCRM; 2020). The Report is to be submitted to and approved in writing by the Local Planning Authority before development commences.

b) In the event of the mine gas risk assessment finding the site to be affected by mine gases a further report detailing a Remediation Strategy shall be submitted to and approved in writing by the Local Planning Authority. The Remediation Strategy must have regard to current guidance and standards and ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 in relation to the intended use of the land after remediation.

c) The works detailed as being necessary to make safe the mine gases shall be carried out in accordance with the approved Remediation Strategy.

d) In the event that further contamination is found at any time when carrying out the approved development that was not previously identified it must be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment, and where remediation is necessary a remediation scheme must be prepared in accordance with the requirements of the Environment Agency guidance Land Contamination: Risk Management (LCRM; 2020), which is subject to the approval in writing by the Local Planning Authority.

e) Following completion of measures identified in the approved remediation scheme a Verification Report shall be submitted to and approved in writing by the Local Planning Authority that demonstrates the risks from mine gases and any contamination identified has been made safe, and the land no longer qualifies as contaminated land under Part 2A of the Environmental Protection Act 1990 in relation to the intended use of the land. Verification must be in accordance with current guidance and standards.

Reason: To ensure that risks from potential mine gases to the future users of the land, property and neighbouring land are minimised, and to ensure that the development can be carried out safely without unacceptable risks to human health and offsite receptors. This information is required prior to the commencement of the development as it relates to matters which need to be confirmed before the development proceeds in order to ensure a sustainable development.

7. Prior to the commencement of the development, including any works of demolition, a Construction Method Statement shall have been submitted to, and approved in writing by, the Local Planning Authority. The approved Statement shall be adhered to throughout the construction period.

Reason: This detail is required prior to commencement to avoid congestion in the surrounding area and to protect the amenities of the area. This information is required prior to the commencement of the development as it relates to matters which need to be confirmed before the development proceeds in order to ensure a sustainable development.

8. No development shall take place until a scheme of foul drainage, and surface water drainage has been submitted to and approved in writing by the Local Planning Authority. The approved scheme shall be fully implemented before the development is occupied/brought into use (which ever is the sooner).

Reason: The condition is a pre-commencement condition to ensure satisfactory drainage of the site and to avoid flooding. This information is required prior to the commencement of the development as it relates to matters which need to be confirmed before the development proceeds in order to ensure a sustainable development.

9. No development shall take place (including demolition, ground works and vegetation clearance) until a Landscaping Plan has been submitted to and approved in writing by the Local Planning Authority. The landscape works shall be carried out in full compliance with the approved plan, schedule and timescales. The plan shall include:
 - a) Planting plans, creation of wildlife habitats and features and ecological enhancements (e.g. hibernacula, integrated bat and bird boxes, hedgehog-friendly gravel boards and amphibian-friendly gully pots);
 - b) Written specifications (including cultivation and other operations associated with plant, grass and wildlife habitat establishment);
 - c) Schedules of plants, noting species (including scientific names), planting sizes and proposed numbers/densities where appropriate;
 - d) Native species used are to be of local provenance (Shropshire or surrounding counties);
 - e) Details of trees and hedgerows to be retained and measures to protect these from damage during and after construction works;
 - f) Implementation timetables.

Any trees or plants that, within a period of five years after planting, are removed, die or become seriously damaged or diseased shall be replaced with others of species, size and number as originally approved, by the end of the first available planting season.

Reason: To ensure the provision of amenity and biodiversity afforded by appropriate landscape design. This information is required prior to the commencement of the development as it relates to matters which need to be confirmed before the development proceeds in order to ensure a sustainable development.

CONDITIONS THAT REQUIRE APPROVAL DURING THE CONSTRUCTION/PRIOR TO THE OCCUPATION OF THE DEVELOPMENT

10. Prior to first occupation / use of the buildings, the makes, models and locations of bat and bird boxes shall be submitted to and approved in writing by the Local Planning Authority. The following boxes shall be erected on the site:

- A minimum of 1 external woodcrete bat boxes or integrated bat bricks, suitable for nursery or summer roosting for small crevice dwelling bat species.
- A minimum of 2 artificial nests of either integrated brick design or external box design, following the recommendations of Section 6.5.2 of the ecological appraisal (Greenscape Environmental, 25th July 2022).

The boxes shall be sited in suitable locations and at suitable heights from the ground, with a clear flight path and where they will be unaffected by artificial lighting. The boxes shall therefore be maintained for the lifetime of the development.

Reason: To ensure the provision of roosting opportunities for bats and nesting opportunities for wild birds, in accordance with MD12, CS17 and section 175 of the NPPF.

11. Prior to the erection of any external lighting on the site, a lighting plan shall be submitted to and approved in writing by the Local Planning Authority. The lighting plan shall demonstrate that the proposed lighting will not impact upon ecological networks and/or sensitive features, e.g. bat and bird boxes, trees, and hedgerows. The submitted scheme shall be designed to take into account the advice on lighting set out in the Bat Conservation Trust's Guidance Note 08/18 Bats and artificial lighting in the UK. The development shall be carried out strictly in accordance with the approved details and thereafter retained for the lifetime of the development.
Reason: To minimise disturbance to bats, which are European Protected Species.

Schedule 1 - Approved plans, drawings, documents

Description	Reference	Date Received
Mixed/Combined Plans	Park Farm/01, Rev. A	27.07.2022

INFORMATIVES

If your application has been submitted electronically to the Council you can view the relevant plans online at www.shropshire.gov.uk. Paper copies can be provided, subject to copying charges, from Planning Services on 01743 252621.

Where there are pre commencement conditions that require the submission of information for approval prior to development commencing at least 21 days notice is required to enable proper consideration to be given.

Your attention is specifically drawn to the conditions above that require the Local Planning Authority's approval of materials, details, information, drawings etc. In accordance with Article 21 of the Town & Country Planning (Development Management Procedure) Order 2010 a fee is required to be paid to the Local Planning Authority for requests to discharge conditions. Requests are to be made on forms available from www.planningportal.gov.uk or

from the Local Planning Authority. The fee required is £116 per request, and £34 for existing residential properties.

Failure to discharge pre-start conditions will result in a contravention of the terms of this permission; any commencement may be unlawful and the Local Planning Authority may consequently take enforcement action.

The active nests of all wild birds are protected under the Wildlife and Countryside Act 1981 (as amended). An active nest is one being built, contains eggs or chicks, or on which fledged chicks are still dependent.

It is a criminal offence to kill, injure or take any wild bird; to take, damage or destroy an active nest; and to take or destroy an egg. There is an unlimited fine and/or up to six months imprisonment for such offences.

All vegetation clearance, tree removal and scrub removal should be carried out outside of the bird nesting season which runs from March to August inclusive.

If it is necessary for work to commence in the nesting season then a pre-commencement inspection of the vegetation for active bird nests should be carried out. If vegetation cannot be clearly seen to be clear of nests then an appropriately qualified and experienced ecologist should be called in to carry out the check. Only if there are no active nests present should work be allowed to commence.

If during construction birds gain access to any of the building and begin nesting, work must cease until the young birds have fledged.

Where it is intended to create semi-natural habitats (e.g. hedgerow/tree/shrub/wildflower planting), all species used in the planting proposal should be locally native species of local provenance (Shropshire or surrounding counties). This will conserve and enhance biodiversity by protecting the local floristic gene pool and preventing the spread of non-native species.

Surface water and foul drainage schemes for the development should be designed and constructed in accordance with the Councils SUDS Handbook which is available in the Related Documents Section on the Councils Website at: <https://shropshire.gov.uk/drainage-andflooding/development-responsibility-and-maintenance/sustainable-drainage-systems-handbook/>

This planning permission does not authorise the applicant to:

- construct any means of access over the publicly maintained highway (footway or verge) or
- carry out any works within the publicly maintained highway, or
- authorise the laying of private apparatus within the confines of the public highway including any a new utility connection, or
- undertaking the disturbance of ground or structures supporting or abutting the publicly maintained highway

The applicant should in the first instance contact Shropshire Councils Street works team. This link provides further details

<https://www.shropshire.gov.uk/roads-and-highways/road-network-management/application-forms-and-charges/>

Please note Shropshire Council require at least 3 months' notice of the applicant's intention to commence any such works affecting the public highway so that the applicant can be provided with an appropriate licence, permit and/or approved specification for the works together and a list of approved contractors, as required.

The applicant is responsible for keeping the highway free from any mud or other material emanating from the application site or any works pertaining thereto.

Drainage arrangements shall be provided to ensure that surface water from the driveway and/or vehicular turning area does not discharge onto the public highway. No drainage or effluent from the proposed development shall be allowed to discharge into any highway drain or over any part of the public highway.

The applicant's attention is drawn to the need to ensure that appropriate facilities are provided, for the storage and collection of household waste, (i.e., wheelie bins & recycling boxes).

Specific consideration must be given to kerbside collection points, to ensure that all visibility splays, accesses, junctions, pedestrian crossings, and all trafficked areas of highway (i.e., footways, cycle ways & carriageways) are kept clear of any obstruction or impediment, at all times, in the interests of public and highway safety.

In determining the application the Local Planning Authority gave consideration to the following policies:

Central Government Guidance:
National Planning Policy Framework
National Planning Practice Guidance

LDF Core Strategy Policies:
CS1 Strategic Approach
CS3 The Market Towns And Other Key Centres
CS6 Sustainable Design And Development Principles
CS9 Infrastructure Contributions
CS11 Type And Affordability Of Housing
CS17 Environmental Networks
CS18 Sustainable Water Management

Site Allocations & Management Of Development (SAMDev) Plan Policies:
MD1 Scale and Distribution of development
MD2 Sustainable Design
MD12 Natural Environment
S15 Shifnal

Supplementary Planning Documents (SPDs):
Type And Affordability Of Housing

Shifnal Neighbourhood Plan 2014-2026

In arriving at this decision the Council has used its best endeavours to work with the applicant in a positive and proactive manner to secure an appropriate outcome as required in the National Planning Policy Framework paragraph 38.

If your proposed project requires **Building Regulations Approval** or you are unsure whether it does please contact us on **01743 258710**, email buildingcontrol@shropshire.gov.uk or visit our website <https://www.shropshire.gov.uk/building-control/> for pre-application advice and a competitive fee.

As part of the planning process, consideration should be given to the information contained within Shropshire Fire and Rescue Service's "Fire Safety Guidance for Commercial and Domestic Planning Applications" which can be found using the following link: <http://www.shropshirefire.gov.uk/planning-applications>

If your project relates to a **Listed Building** please be aware that if, during the process of obtaining Building Regulation Approval or undertaking Fire Safety works amendments to the scheme as approved under the Listed Building Consent are requested, it is very likely that you will need to amend your approved drawings regardless of how minor the alteration may be. If this is the case, please contact the Case Officer and they will determine what action is required. Work should not be proceed until appropriate amendment/s have been approved in writing by the Council. We would advise that the carrying out of unauthorised work could represent a criminal offence under Section 9(1) of the Planning (Listed Building & Conservation Areas) Act 1990 (as amended).

22/03452/FUL

Tracy Darke, Assistant Director of Economy & Place
Date of Decision: 30th September 2022

NOTES

Conditions

You will see that your decision notice includes a number of conditions:

- You must comply with all of the conditions. If you are unclear about any of them, please contact the Planning Officer who dealt with the application.
- Some of the conditions may require you to submit further information to the Council for approval. Most conditions will need to be complied with before you start work on site.
- If you think any of the conditions are unreasonable you may appeal to the First Secretary of State, through the [Planning Inspectorate](#).
- Please also ensure that you comply with the requirements of any Legal Agreement that may accompany the planning permission.

Informatives

Your decision notice includes a number of informatives. This gives you some extra guidance and advice which will help the development process. Please note your Decision Notice gives permission only under the Town and Country Planning Acts. You may need other approvals, for example under the Building Regulations, or Party Wall Act, or permission from your neighbour to go onto his/her land.

Amendments

If you need to alter your approved drawings please send full details to us regardless of how small the alteration is. Your case officer will determine whether this can be agreed through a simplified exchange of correspondence or whether a revised application needs to be submitted. Further guidance can be found at www.shropshire.gov.uk/planning . You should not commence work until the amendment has been approved in writing by the Council. This is **particularly important** if the project involves a **Listed Building** and work should not be proceeded until appropriate amendment/s have been approved in writing by the Council. We would advise that the carrying out of unauthorised work could represent a criminal offence under Section 9(1) of the Planning (Listed Building & Conservation Areas) Act 1990 (as amended).

Appeals to the Secretary of State

If the applicant is aggrieved by the decision of the Local Planning Authority to refuse permission for the proposed development or to grant it subject to conditions, then the applicant can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990 (as amended).

An appeal must be made within six months of the date of this notice, or 12-weeks if the scheme is for that of "household" development, or minor commercial application, or within 8 weeks in the case of advertisement appeals. Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>. If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

Where an enforcement notice has been served on the same, or substantially the same, development as in the application within 2 years of the date the application was made, the period for receiving an appeal is 28 days of the date on the decision notice or the date by which the LPA should have decided the application. Where an enforcement notice was served after the decision notice was issued or after the end of the period the LPA has to determine the application, the period for receiving an appeal is within 28 days of the date the enforcement notice was served (unless this extends the normal 12 week deadline).

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by him.

If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority (appeals@shropshire.gov.uk) and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. Further details are on GOV.UK.

Purchase Notices

If either the Local Planning Authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council requiring the Council to purchase the interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990 (as amended).
