Energy performance certificate (EPC)				
Ivy Cottage	Energy rating	Valid until:	2 June 2025	
Stone House Lane Peckforton TARPORLEY CW6 9TN	G	Certificate number:	8745-7226-2240-1309- 8902	
Property type	I	Detached house		
Total floor area	164 square metres			

### Rules on letting this property

# You may not be able to let this property

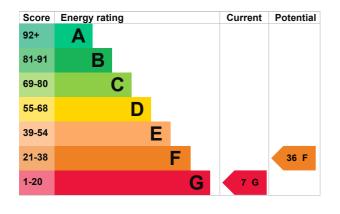

This property has an energy rating of G. It cannot be let, unless an exemption has been registered. You can read <u>guidance for landlords on the regulations and exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance</u>).

Properties can be let if they have an energy rating from A to E. You could make changes to <u>improve this property's energy rating</u>.

### **Energy rating and score**

This property's energy rating is G. It has the potential to be F.

<u>See how to improve this property's energy</u> <u>efficiency</u>.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

# Breakdown of property's energy performance

#### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Timber frame, as built, no insulation (assumed)	Very poor
Roof	Pitched, 150 mm loft insulation	Good
Window	Single glazed	Very poor
Main heating	Boiler and radiators, LPG	Poor
Main heating control	Programmer, TRVs and bypass	Average
Hot water	From main system	Poor
Lighting	Low energy lighting in 54% of fixed outlets	Good
Floor	Suspended, no insulation (assumed)	N/A
Secondary heating	Room heaters, anthracite	N/A

#### Primary energy use

The primary energy use for this property per year is 379 kilowatt hours per square metre (kWh/m2).

# How this affects your energy bills

An average household would need to spend **£4,380 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £1,078 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2015** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

#### Heating this property

Estimated energy needed in this property is:

- 34,711 kWh per year for heating
- 2,327 kWh per year for hot water

# Impact on the environment

This property's environmental impact rating is F. It has the potential to be E.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

#### **Carbon emissions**

An average household 6 tonnes of CO2 produces

This property produces 15.0 tonnes of CO2

This property's9.2 tonnes of CO2potential production

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

#### Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Floor insulation (suspended floor)	£800 - £1,200	£181
2. Draught proofing	£80 - £120	£79
3. Heating controls (room thermostat)	£350 - £450	£206
4. Condensing boiler	£2,200 - £3,000	£356
5. Flue gas heat recovery	£400 - £900	£67
6. Replace single glazed windows with low-E double glazed windows	£3,300 - £6,500	£190
7. Solar photovoltaic panels	£5,000 - £8,000	£256
8. Wind turbine	£15,000 - £25,000	£530

#### Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

# Who to contact about this certificate

#### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Neil Garside
Telephone	02084518600
Email	sales@ehouse.co.uk

#### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	NHER
Assessor's ID	NHER002189
Telephone	01455 883 250
Email	enquiries@elmhurstenergy.co.uk

#### About this assessment

Assessor's declaration	No related party
Date of assessment	1 June 2015
Date of certificate	3 June 2015
Type of assessment	RdSAP
