WHITBY

Simply the best Location...

Location, location, location....

That's what the presenters on all the television programmes say and when it comes The Engine Shed that certainly is true, with Whitby Town Centre, Whitby's golden beaches and Church Street amenities all with easy reaching distance.

Originally built to stable horses and carriages for the railway and later the steam locomotives based in Whitby, the grade II listed Engine Shed has been tastefully transformed into 11 luxury one and two bedroom holiday apartments.

HENDERSONS

The Developers' Vision

The developers, Peter and Andrew, who have a reputation for quality, had a clear vision to give the old engine shed the sustainable future it deserved. They have created a unique experience linking to the buildings historic past and by fusing the listed stone building with modern interiors, have transformed the Engine Shed into the holiday venue of choice.

Since it's opening in August 2019, it has been popular for both short and long term stays, hosting visitors such as celebrity chefs, Dave and Si, fondly known as The Hairy Bikers. You can catch their visit on the BBC I-Player during Episode 2 of The Hairy Bikers Go North.

After securing the future of the Engine Shed, Peter and Andrew have similarly transformed the Carlill on Royal Crescent, another of Whitby's historic buildings, a development that was completed in 2022 and saw all apartments sold months before completion.

The Engine Shed

A beautiful collection of apartments in the heart of Whitby, finished to an exceptionally high standard with quality fixtures and fittings throughout.

What is Whitby Famous for?

Well you have the whaling industry, Whitby Goth festival, Dracula, 199 steps, Whitby Abbey, the best fish and chips in the world and simply one of the best tourism hot spots on the Yorkshire Coast. Whitby unspoilt by modern day life still retains all its character and charm which make it so popular with visitors.

A person wearing a striped long-sleeved shirt and purple shorts is walking away from the camera on a wooden pier. A small, light-colored dog is walking alongside them. The pier has a white metal railing. In the background, the ocean stretches to the horizon under a bright blue sky with scattered white clouds. A small white sign is attached to the railing.

What are you waiting for?

Whitby has seen a huge increase in popularity over the last twenty years but recently became the No.1, most in demand seaside town in a recent survey by Rightmove. With people opting for an investment by the sea rather than shares in a FTSE 100!

COASTAL LIVING

There is more to Whitby than the famous 199 steps, Dracula or Captain James Cook.

Whitby over the recent years has become a great place to wine and dine on an evening, from cocktails at Harry's Bar to famous fish & chips at the Magpie or Trenchers.

There is always something going on in Whitby, which now operates an all year round tourism calendar, so where better to invest.
